COME VOLUNTEER AT THE ZOO

Are you a teenager who likes animals? Do you want to volunteer? Come to the Columbia Zoo and become a Zoo Teen!

What is a Zoo Teen?

A Zoo Teen is a high school student who volunteers at the Columbia Zoo for five hours a week during school vacations.

What do Zoo Teens do?

They welcome the visitors, give them directions and answer their questions. They also take groups of visitors around the zoo and tell them about the animals.

What do you have to do to become a Zoo Teen?
- Bring a letter from your parents saying that they allow you to volunteer.
- Take a short course at the zoo before you begin to work. You will learn about the zoo and the animals. You will also learn how to speak in front of a group of people.

If you want to be a Zoo Teen, fill out the form at www.columbiazoo.com.

After we get your form, we will invite you for an interview.

Elephants and Bees

by Andrew Kim

Many farmers in Africa have a problem. Elephants get into the farmers' fields and eat the food they grow. The farmers have to find a way to keep the elephants out, so they put fences around their fields. They also try to frighten the animals by starting fires and making loud noises on drums. Often, these solutions do not help. Sadly, some

5 farmers kill elephants that go into their fields.

Dr. Lucy King, from Oxford University, thinks she has an answer to these problems. She found out that elephants are afraid of bees. She played a recording of bee sounds near a group of elephants and these huge animals ran away. They also made a special sound to warn other elephants.

10 Dr. King hopes her discovery will help the farmers. It could also save many elephants. "Farmers can put beehives'" around their fields," she says. "When elephants come near, the noise of the bees will frighten them. They will run away and send a message to other elephants to keep away. Fewer elephants will die and farmers will have more food." It seems that Dr. King's solution can help both the farmers and the animals!
